Need to accommodate 7 guys to the OPG team!

KV has called for review tomorrow 9 am!

I need to focus on my work for sometime.

Let's have a brainstorming session.

What options do I have for a 3 day workshop.. 25 people?

Can I merge my ground floor teams for 3 months?

Annual STRAP meeting finalised in mid April. Make necessary provisions.

I need to accommodate a team of 25 for 9 weeks for a special offshore training starting mid Jan.

APK launch celebration this Friday.

# Juggling Spaces, People and Expectations?

Running late for December roll out... Block the east wing space 24x7 to handle 40-50 geeks !!

Can I have the second floor conference room for 3 days for a Project Kick-start?

Project demands productive collaboration! Get them all together!!

How can I add 3 workstations to my team here?

Christmas Team Celebrations - Where can we party??

Let's have a quick review ... NOW!

With people spending on an average half of their working hours away from their individual workspace, organizations are increasing the amount and variety of unassigned activity. **Spaces are made available to everyone for both planned and spontaneous interactions.**

Versatility is the key. Workplaces today are designed for multiple roles, and need to continuously transform and adapt to the required tasks.

New rules to work with

**FLEXIWORK**  
Thoughtfully Agile!

### Design for spontaneity and adapt-on-demand

Today, users prefer to change, move or modify their workspace to suit the needs and desires of the occasion or task. Desking systems therefore need to be agile and flexible.

### Think different, plan beyond density; for innovation and evolution

The change in work culture has brought in a huge shift in user attitudes and expectations. Formal cubicles are giving way to furniture systems that can be innovatively configured and used as per context.

### Easy to accommodate teamwork, collaboration and individual focused work

Though collaborative teamwork is becoming more and more popular, there are days when users wish to concentrate and focus on work. A thoughtfully designed workdesk perfectly balances both.

### Enable quick transformations

Each space today performs multiple roles. Activity based spaces are now more popular than primary work areas. They bring in a fresh change in the surroundings, and encourage team interactions and fruitful collaborations.

# FLEXIWORK

Thoughtfully Agile!

Wipro's Flexiwork series is an answer to contemporary activity based working, especially formulated for agile working & hot desking.
